

DC4532

3M™ Disposable Coverall Type 5/6

Lightweight • Ventilated Rear Panel •
Superior Oil and Alcohol Resistance

PRODUCT DESCRIPTION

3M™ Protective Coverall 4532+ has a unique specialist material treatment which offers enhanced liquid hold out with added oil and alcohol repellency. Use 3M™ Protective Coverall 4532+ for protection against limited chemical splashes, liquids, and toxic dusts, including nuclear particles. This coverall includes a specialist treatment of the material which offers an enhanced liquid repellency with increased oil and alcohol performance. The Spunbond acts as the smooth strength and splash protection, while the Meltblown layers provide an intricate multilayered web of microfibrils that filter out particulates. Soft, breathable and very lightweight, the non-woven material allows for easier release of body heat and moisture through the triangular back panel, giving extended comfort wear for increased productivity in the workplace.
